## ELEVEN MILLIONS A YEAR

WHEN silver returns to normal price, which means when the end of the war is in sight, and then when it advances to a figure much higher than it has reached at any time since its demonetization, owing to the tremendous demand for coinage and in the arts upon rest ration of peace—then the output from the mines of Tonopah will startle the world.

But even now, when the white metal is depressed and production is in excess of demand, causing it to be stored in vast quantities, the mines and mills of Tonopah continue to put forth nearly a million dollars a month. For the first twenty-six weeks of this year the production was 280,576 dry tons, worth \$5,751,286. And this was despite the accumulation of untouched stone blocks and the lowering of the heads at the mills. The people of Tonopah and stock investors everywhere fail to realize what a magnificent future is held in store for this camp and what unparalleled opportunities to benefit by the purchase of shares at the present price, which is far below their intrinsic value.

## THE TWO VOLCANOES

(From the Mission Enterprise, San Francisco, Cal.)

THE Tonopah Daily Bonanza calls public attention to the fact that at present there are two volcanoes in active eruption in the United States. One of them is situated in Nye county, Nevada—a new mining camp named Volcano, which has already proven a mineral wonder, and that will contribute millions to the wealth of the world. The other is Mount Lassen, in Lassen county, California, which, instead of belching forth golden treasure, spouts fire, ashes, mud, lava and fumes, devastating fertile valleys, destroying property, rendering industrious people homeless, transforming prosperous communities back to primeval desert and desolation, and menacing the property and people of a quarter of a great commonwealth.

As to the importance and demonstrated worth of Nevada's Volcano, with its stream of yellow gold, the press of the country is silent, as it is, and has been, relative to the great mining industry which forms the basic structure of all civilization and human advancement since man was born upon the earth. Not a word from the Associated Press in our great morning dailies about the marvelous mineral wealth of California, Colorado, Nevada, Arizona, Utah and the entire Golden West. Not a syllable from the United Press in our afternoon papers about the Nevada Volcano that gleams with golden lustre, nor any of the great camps upon which mankind depends for its perpetuity.

But every paper glares with sensational headlines and articles on the eruptions of Mount Lassen, which, at best, has only been an instrument of danger and destruction. The mammoth ledge recently discovered in Tonopah, the fabulous finds in Cripple Creek, the Aladdin fields, lately discovered in Utah, and the numberless bonanzas active and dormant in California receive not even a passing notice from our great "art preservatives," public instructors and moulders of opinion. Within the last sixty days splendor has advanced from 14 cents to several times that price per pound, placing bonanzas within easy reach of those who own or control zinc deposits, hitherto worthless. But our daily papers are silent as the tomb on this vastly important topic. Mining is recognized by the press associations only when one mining company sues another, or when a cable breaks or a missed shot explodes, causing destruction of property or injury and death to the miner.

Senator Kern wants an extra session of congress for a little reason that is all his own. He wants the senate to adopt cloture—in other words, a gag rule which will enable such strictly Democratic measures as the ship purchase bill to be crammed down the throats of the minority. The senate today, with its rules, is the last remaining bulwark against an aggressive executive. If the senate had a cloture rule, the legislative motto of the country for the next two years would be: "Wilson—that's all."

Fresno brags about being able to celebrate the Fourth of July on an expenditure of four cents, the investment being for two postage stamps. Hurray for you, Fresno! The Bonanza backs you up in your contention. You certainly are a cheap town.

Tonopah numbers in its population many varieties of the cheerful idiot, but nature has kindly relieved us of that species of dampitude now so greatly in evidence elsewhere—the criminal simpleton that rocks the boat.

Now if someone could only devise a series of naval maneuvers that would convince Josephus Daniels that the navy needs a new secretary as well as new submarines!

All Missourians are invited to attend Speaker Clark's daughter's wedding. But cheer up, Champ, probably all of them won't accept.

Most of the people who deride the suburbanite's radish are such poor agriculturists themselves that they could not even raise a blister.

The old inhab who crossed the prairie in a schooner in '56 has a grandson who motors back with the schooner inside.

There was a brave commissioner. He had a dozen men. They daubed the streets with tarvia, then swept it off again.

The correspondence school of peace for Mexico does not seem likely to result in the education of Carranza.

## A Word Is Enough to The Wise

Indoor living during winter months is apt to deprive the system of purifying oxygen. This will result in impoverished blood. A tired, sleepy, inert feeling should be sufficient warning that you need Our Beef, Iron and Wine to help nature restore your "vita." This remedy is made in our own laboratory and contains all of the valuable strengthening qualities of fresh, lean beef—an easily assimilated form of iron—and a rich, mellow sherry wine. This is an ideal tonic for stimulating the system and aiding digestion. Price \$1.00.

# AFTERMATH OF THE HUGE CELEBRATION

## Continuation of Narrative so Unfortunately Interrupted in Yesterday's Paper

So complex in its details was the celebration of the Fourth of July in Tonopah that the events of the two-day carnival could not be narrated in one issue of the Bonanza, hence the continuation of the story today: Every Inch a Goddess

Tonopah was particularly fortunate in being ruled during the celebration by so fair and charming a Goddess of Liberty as Miss Mary Harrington, a young woman of modest demeanor and gracious manner, of girlish beauty and regal dignity. Her selection by an overwhelming majority was a pleasing outcome of the voting contest, but any of her competitors would have filled the position likewise in most pleasing fashion.

The contest was the most keen and interesting of any ever held in this city and was a neck and neck race, the final outcome being in doubt until the last hour, when the ballot boxes were surrounded by Miss Harrington's friends, who voted early and often. The final count stood:

Mary Harrington	38,990
Lucile Murphy	15,697
Grace Fowler	15,625
Elizabeth Lynch	15,600
Lena Fraser	11,875
Elizabeth Mervin	10,265

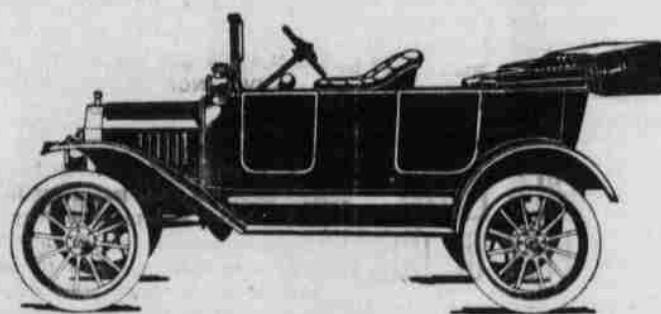

The voting brought into the treasury of the finance committee the substantial sum of \$994.94. This part of the work attending the celebration was most ably performed by a committee of ladies, to whom the executive committee extends congratulations and thanks. The personnel is Mrs. Arthur Hunt, chairman; Mrs. J. C. Piercy, Mrs. Harry Brallier, and Mrs. Will Roberts. Oh, yes, the Goddess' gown. That must be mentioned but the description by a masculine will prove inadequate and probably incorrect. At all events it appeared to be of white crepe de chine, draped with Grecian effect. The gowns of her four little attendants were similarly draped and were of white voile.

A Magnificent Parade  
 Never in all the history of Tonopah was such a brilliant pageant witnessed as the parade yesterday morning. It was nearly a mile in length and was witnessed and applauded by 5000 people who thronged the sidewalks along the line of march. The cheers and handclappings, the waving of flags, the sounding of auto horns, which were the fruit of carefully planned, diligent effort and considerable expense.

Grand Marshal Cuddy led the procession with his aids, consisting of H. H. Atkinson, R. B. Davis, N. M. McCormick, F. Perkins, Tom Dwyer, W. C. ...

The quarantine relative to the importation of bees was found necessary on account of the American and European infected broods, and is declared against all states of the United States. The importation is prohibited unless they have been inspected and found free from infection.

## MANY ASKED FREEDOM

It is stated that since the starting of the state prison in the state of Nevada, 1785 persons have enjoyed their residence at the stone building. Of this number 600 made application for pardon or parole and of that number 215 were successful.—Carson News.
